Another Dreadful Disaster on the Lakes.

In another place will be found such particulars as we have of the shocking disaster of Wednesday evening, resulting in the total loss by fire of the steamer *Niagara*, of the Collingwood line, and nearly a hundred lives, together with a valuable cargo. The excitement in the city was very great as soon as the news was generally known, and the extra which we published at about 8½ A. M, with such meagre particulars as we could gather by that time, was eagerly sought after, and crowds of men were gathered around the bulletin board all the morning.

From Mr. Westbrook, of Green Bay, we got quite full particulars of the dreadful scene.

Nothing but the panic among the officers, passengers and crew, caused by the rapid progress of the flames, can account for such a loss of life The boat was within three miles of the shore, and vessels in sight, making towards them with all speed. We hear of but two boats, one of which saved 22 persons, and another, the lifeboat, from mismanagement, only 4 or 5. The women and children, poor creatures, in such a scene of confusion, were left to care for themselves We hear of planks used in saving life, but do not know whether or not they were planks kept for such emergencies. We hear of no life preservers—the word is not mentioned in any of our accounts. It seems scarcely possible that a boat like the *Niagara*, a first class boat but two or three years since, could have been run on a long route like the one on which she was engaged, carrying sometimes hundreds of passengers, without life-preservers of some kind, or more boats than those mentioned

We must await further particulars before we can comment properly upon the subject of the disaster.

P. S.—Mr. Ainsworth, one of the passengers who was saved, informs us that he *could find no life preservers* on board. He looked into several staterooms but could find none. There was none in his own stateroom during the two days he occupied it. There was no stool in his stateroom, and he saw no life preserving stools or chairs.

A meeting of our citizens is called to-night, to raise means for the relief of the passengers left here in distress. Several of them were taken to the Tremont House last night, entirely destitute We trust that something will be done immediately.

We learned last night further particulars, which we give as we get them From Mr. Besley, of this city, we get the following names of the persons who were saved in the quarter boat, and several others. The names follow;

SAVED IN THE QUARTER BOAT.—G W Bolles, Chicango Co., N. Y.; W H Hamilton, do.; E S F Pitcher, do.. C D Adams, do.; J C Thomas, Cato, N. Y.; Edward Lane, Montreal, M Dovany, Boston, J Miller, Chicago, J Collins, Montreal; D Lyons, Cornelius Briar, do.

Patrick O'Neil, Mary Malone, Neil O'Neil, Mary Lake (or Loakey), Mary Lyons, (woman lost her father, mother and sister), Martin Houghton, wife and two children, Westport, Canada; 2 boys, Louis and Francis Willard, Plattsburg, N. Y; 4 children of — Chalmers or Chambers, from New Brunswick, (these 6 children are at Pt. Washington.)

The porter states that all but two of the crew were saved.

The following were also saved, we do not learn how

F. Driscoll, Fulton, N. Y.
Dan'l Lee, Waukesha, Wis.
F. R. Houlbut, Mackinac.
C. H. Peters, (porter), Chicago.
H. Hely, son of the clerk, Buffalo.

Mr. Macy is undoubtedly lost Mr. Houghton, who by his presence of mind succeeded in saving his family, states that a boat was being lowered astern, there being then some some 15 women and several men in it, one end being much lower than the other, when Mr. Macy sprang into the boat, and his great weight broke the ropes, and all went into the water, except a few who hung to the other ropes. The boat sank immediately. Mr. Macy was not seen afterwards. He had in charge a family named Hutchins, among them three ladies, we understand Capt. Miller states that he threw overboard doors, and endeavored to get these ladies to save themselves by them, but in vain.

There appears to have been boats enough to save nearly all on board, if not quite, but for the panic which seized upon nearly everybody.

This is the 11th season of the *Niagara*, having one of the best engines on the lakes, she was valued at abou. $60,000. owned by C. M. Reed, of Erie, and not insured.

The hull lies about 1½ miles from shore, 9 miles north of Port Washington, in 7 fathoms water, a piece of the wreck standing about 4 feet out of water.

FROM MADISON.

Report of the Land Grant Committee.

Editorial Correspondence of the Sentinel.

MADISON, Sept. 25th.

In Assembly this morning, Messrs. Stark and Beyer, from the select Committee having charge of the bill to suppress intemperance etc, made a "supplemental" report, discussing the policy of prohibitory liquor laws, dragging in the topic of Know Nothingism, and chaunting the praises of Lager Bier—ill for the benefit and behoof of Mr. Stark, and of the Buchaneers and Barston Democracy. Mr. MILLS, of Grant, from the same Committee, also submitted a report, giving in brief his views on the question, and his reasons for opposing the bill. It will be remembered that yesterday Messrs. Brown and Knowlton, from the same Committee, made a report recommending the indefinite postponement of the bill, for reasons given. Mr. Stark's report concluded with a resolution declaring all prohibitory laws unwise, unconstitutional and impracticable. Mr. Krumbi, of Lafayette, moved the indefinite postponement of the resolution, on the ground that the minority of the Committee reporting it had traveled outside the record, in the hope of making a little political capital. The amendment was rejected, yeas 34, nays 58. Sundry other amendments were offered and rejected, and a discussion followed, which lasted till the morning hour expired, when the previous question was ordered and the resolution passed, 43 to 34. The question on postponing the bill indefinitely was then put and *carried*, yeas 71, nays 6. This finally disposes of the Liquor Law.

Mr. Smith, from Iowa, asked a suspension of the rules to enable the Committee on the Land Grant to make a report, but the Assembly *refused*, the Select Committee being evidently out of favor.

Mr MILLS of Grant, desiring as he said, to strike while the iron was hot, offered a resolution, declaring all License Laws, requiring fees to to be paid for the privilege of selling liquor, an infringement of national rights and pantaking in their nature of the prohibitory principle, and expressing the opinion of the House that the sale of liquor should be as unrestricted as that of baker's bread, or butchers' meat. But the Democratic majority, who just before were so anxious to declare their theoretic opposition to *all* prohibitory laws, now refused to suspend the rules to take up Mr Mills' practical resolution.

The Assembly then resolved itself into Committee, A. D. Gray, in the Chair, on the bill relative to the Fox and Wisconsin River Improvement Company, and after discussing it awhile, referred it to a select committee to report complete, and then adjourned till to-morrow.

In Senate, the resolution to adjourn on Tuesday next was amended by inserting Oct 1st, and rejected. A bill was introduced by Mr. Harvey to regulate crossings of Rail Road tracks by trains, and a bill passed authorizing Sheboygan to loan its credit for $15,000 to aid the Sheboygan and Mississippi Rail Road. Mr. Taylor, from the Select Committee on the Land Grant, reported a bill to organize a Company to construct the road from Fond du Lac to Lake Superior, giving notice that a separate bill for the Northwestern road would be reported hereafter. Mr. Gibson, from the La Crosse District, submitted a minority report, dissenting from the selection of Corporators, and complaining that no provision is made for buying out the St. Croix and Lake Superior Company, who claim to have made very heavy outlays

The apportionment Bill came back from the Assembly, with sundry amendments. These were all concurred in, save the new division of Jefferson County, and the additional member for Wood and Portage Counties, which were rejected I think that the Assembly will *recede* from these amendments, and that the Apportionment Bill will pass in this shape, as it should.

Mr. Taylor, in reporting the Land Grant bill, this morning, stated that the Select Committee had disagreed and *dissolved*, and that he introduced the bill, not as approving of it in all parts, but as basis for Legislative action. The following are the corporators named in the bill for the North-Eastern grant: Messrs. Huertel, of Milwaukee, Lumberson, of Ozaukee, Hillie, of Sheboygan, Keuhn, of Manitowoc; Loy, of Brown; Ballard, of Outagamie; Doty and Wright, of Winnebago; Moore and Phillips, of Fond du Lac; Julius White, of Madison, and Jno. Bradley; with *three* more to be named by the Governor. I think the North-Western grant will be reported to-morrow, with a new and improved set of corporators, and Columbus as well as Madison, fixed as a point in the bill. This is reasonable and just to all interests and will I am inclined to believe, command the assent of the Legislature and the approval of the Governor.

The news of the burning of the *Niagara*, with heavy loss of life and property, was received by telegraph this morning and excited universal sympathy. Intense interest is manifested for the further particulars.

The bill for settling the matters in dispute between the Fox and Wisconsin River Improvement Company and the State, which came up in Assembly to-day, appears to be an equitable and proper one. It saves the State harmless, without injury to the company, and gives to the Governor the right of appointing three Trustees. It will doubtless become a law, substantially as reported.

Mr. POTTER, who has been quite indisposed for three days past, is convalescent, and will be in his seat to-morrow. I am authorized by him to say, that the paragraph in the Walworth County *Reporter*, charging him with avowing himself in favor of the dissolution of the Union, is an *utter* and unqualified falsehood. He has never expressed, or entertained, any such disloyal sentiments.

We have to-day a glorious sample of September weather; light, breezy and balmy.

THE KANSAS LAND SALES.—The sale of land in Kansas is postponed till the 17th of November, and not the 11th, as we stated yesterday.

From our Extra of Yesterday Morning.

BURNING OF THE STEAMER NIAGARA!

Of The Collingwood Line.

NEARLY 100 LIVES LOST!

Boat and Cargo a Total Loss.

We are pained to be obliged to record another dreadful lake disaster, in the loss by fire of the steamer *Niagara*, of the Collingwood Line, last night, off Port Washington, about 20 miles north of this city

We are indebted to Mr. Wm. Snow, of the firm of Snow & Williams, of this city, who came up on the *Traveler* last night, for the following particulars, received since our paper went to press this morning

The *Niagara*, Capt F. Miller, took fire on her passage from Collingwood to this port, when within about four miles of Port Washington, and some 25 miles from this port, and in a very short space of time was entirely consumed and sunk. The light was plainly seen from here at 6 P. M., last night.

The steamer *Traveler*, Capt. Sweeny, bound here, fortunately came to the assistance of the burning boat, and Capt. Sweeney, his officers and men, gallantly exerted themselves to save lives, and with success. The following is the list of those saved by the *Traveler*. Many others, it is said, were picked up by boats and vessels which came in sight:

Harvey Ainsworth, Royalton, Vt.
I. B Burtis, Steuben Co, N. Y.
Henry Locke, Washington Co, Vt.
Wm. Hoag, Buffalo, N. Y.
John Hill, Collingwood.
H. Chalmers and Lady, Hamilton, N. B.
J. Locke, Waterbury, Vt.
Henry Locke, do
Lewis Hart, Utica, N. Y.
J. P. Kennedy, Minnesota.
Hugh Kennedy, St. Lawrence Co., N. Y.
Julia Kennedy, do do
C. D. Westbrook, Green Bay, Wis.
Dr. I. H. Allen, Concord, N. H.
James Robinson, Knox Co., Ill.

Mr. Hugh Kennedy lost his wife and daughter. Three dead bodies at Port Washington—all ladies. One lady had a ring on marked "Z. D. G."

Capt. Muler says there was about 80 cabin passengers, but has no recollection how many steerage, thinks there must have been over 150 all told, beside the crew; thinks the first clerk, Mr. Hely was lost—the second clerk was at Port Washington, but so exhausted that he could not speak. The Niagara had a very large load of freight, all a total loss. Not a pound of anything saved

CREW SAVED.

Master—Capt. F. S. MILLER.
Mate——
2d Engineer—N. McKinnon.
Waiter—W. J Thourboner.
Fireman—A Saider.
" I. Gordon.
" Robt. Gillispie.
" A. Carry.
" A. O. Dell.
Waiter—Daniel Osborn.

The propeller Illinois took up a large number. They most, stopped at Port Washington, consequently we did not get their names. There were several sail vessels that done good service. We could not learn how many were picked up by them

We learn from Mr. Merrell, who was on board the schooner *Don Marble*, that the fire broke out at about 1 P. M., and the vessel was headed at once for the steamer, as soon as it was noticed, but the fire had been raging for half an hour when the *Marble* reached her, and many lives were lost already, and others were struggling in the water.

The *Marble* saved about 30. All were in the water except a few, who were clinging to the wheel.

It is reported that Hon. Jno. B. Macy was on board, also Mr. J. R. Goodrich, of this city.*

The *Pilot*, a schooner from Port Washington and a clipper schooner, bound up, were on hand, and rendered assistance. The water was so cold that no one could live in it.

* Mr. Goodrich was not on the Niagara, but returned on the Huron last evening.

Further Particulars.

Below we give the statement of Mr. C. D. Westbrook, of Green Bay, who is among the saved He says:

I was in the after saloon at about 4 P. M., when the cry of "Fire!" was made, and I saw the flames bursting out from the lining to the engine room. I went forward immediately. Saw there Mr. John B. Macy, who was much excited.—Heard him say, "we are lost." Mr. Macy went aft and I saw him no more, and think he is lost. A friend who was with me, L. Mattice, Engineer on the Fox River Improvement, had his wife and two children with him. He went to look after them. I suppose that they are all lost.

The man at the wheel called for help, and I went up to the wheel house and helped head the boat towards shore. We were two or three miles out and about four North of Port Washington, the wind blowing fresh down the Lake. The engine stopped in about 5 minutes after the boat was headed for shore, and the boat drifted rapidly. I went back to the deck and got a plank, and took it aft of the wheel, and clung to the boat till very soon driven away by the flames.

About 30 of the crew and passengers got off on planks from the forward deck, and the boat soon drifted away from them. They were probably all picked up by the boats from the vessels which had come to our assistance. A boat put off from the stern with 22 persons on board. In this boat were several children, thrown in just as she put off. The life-boat was thrown into the water from the deck, and upset. A crowd of people jumped for it and it rolled over, all being drowned except 4 or 5 who clung to the bottom of the boat. These were taken up by boats from the steamer *Traveller*.

Ropes were attached to the guards aft, and let down, and a large number of persons, mostly women and children, slid down the ropes and hung there in clusters, clinging to each other, till the ropes were burned off, and all were drowned, as I believe. A spar was passed in among them when they fell into the water, but none of them seized it.

After the flames came so near that I could not stay on board, I threw my plank into the water, and jumped for it, but several others immediately jumped into the water and struggled for the plank, and I left it and swam away till I reached a cabin door, upon which I got back to the side of the steamer, and got hold of the supports to the guards. I was there with Capt. Miller, when the rope gave way and let the women into the water. He passed spars among them. We soon after went into the wheel, from whence we were taken by the *Traveller's* boats.

Capt. Sweeney, of the *Traveller*, deserves great credit for his despatch in getting to us, and his energy in saving life, and kindness to the half naked and benumbed passengers. He furnished many with clothing; and acted a manly part every way. His boat was at Port Ulleo, 10 miles off, wooding, bound South, and with steam down. He and his men got up steam as rapidly as possible, and turned about to our help.

I think that a number of the people saved by the vessels went aboard the Propeller Illinois.—There were about 45 of the crew and waiters, 80 cabin and 20 steerage passengers. We could only make out that 66 were saved. The clerk is among those lost, I believe.

It did not seem more than 15 or 20 minutes from the time the flames burst out until every soul had left the boat. While I was clinging to the guard, a child floated near, whom I picked up and held till the women and other passengers fell into the water, and were struggling around me, so that I had to let the child go. I saw none of the officers except Capt. Miller, and him only after I got back to the boat. There were several explosions before we left, which the Capt. thought were of powder, smuggled on board, and many reports of pistols. One gentleman, Mr. H. Ainsworth, of Vermont, who was saved, lost all of his family, including several ladies and children, and a large amount of property.

We copy the following from the *Wisconsin* of last evening.

MR. AINSWORTH'S STATEMENT.

Mr. HARVEY AINSWORTH, from Royalton, Windsor Co., Vermont, was aboard with his wife, three children, father, and sister-in-law, with a child. He alone of all the party was saved.—They were on their way to Baraboo, in this State, near which place he had purchased a farm last spring, and was on his way to settle. Mr. A. was standing alone near the stern of the boat, on the hurricane deck, when he first saw the smoke and streaks of flame breaking through the deck, above the engine, between the beams. He immediately ran forward to where his family were standing

The cry of "fire!"—"fire!" was immediately raised from a score of voices.

Men, women and children rushed on deck, with horror depicted upon every countenance, and numbers rushed to the guards and sprang shrieking into the water, to be buried in their liquid graves. Mr. Ainsworth gathered his family around him, and unaided, uncoiled the large hawser, at the bow, and threw it over the guards.

He then let his wife and children down, and finally descended into the noose of the hawser, himself, and hung fast until the flames had burned off the rope, and let him drop into the water. Mr. Ainsworth then got hold of a boat upside down, to which a number of poor drowning wretches were hanging, in the last agonies of death. He thinks that at least a dozen persons were hanging to the boat when he slezed hold.—One after another of these dropped off, until only himself remained. He then succeeded in getting three men, (Mr. Chalmers of N. B., J. P. Kennedy and Hugh Kennedy,) in the boat with him. The four persons were all finally picked up by a small boat from the schooner.

Mr. Ainsworth thinks that there were about 100 cabin passengers on board when the boat left Sheboygan, besides a large number in the steerage. Mr. A. lost all his baggage, and about one thousand dollars in money.

Mr. Ainsworth states that the conduct of Capt. Miller was well calculated to quiet the terror and save the lives of the passengers, and that he was the last man to leave the burning wreck of his vessel.

Of the pecuniary loss by this terrible disaster we learn nothing, though it cannot be less than from $200,000 to $300,000, it is nothing in comparison to the fearful loss of human life.

The case of Mr. Ainsworth is a peculiarly hard one. His party consisted of his wife and three children, the eldest a girl of 15, his father, and his brother's wife, the husband of the latter having left the boat at Sheboygan, to go by land to Baraboo, expecting to meet the party there.

We got the following further particulars last night by the *Arctic*:

PORT WASHINGTON, Sept 25, 1856.

Editors of Sentinel:

GENTS.:—You doubtless before this have the news in detail of the burning of the steamer Niagara, yesterday, off some 4 to 5 miles from this place. I will therefore send you nothing more than Capt. Miller's statement to me, with a description of the dead left here last evening by the Propeller Illinois and the Steamer Traveller.—These were three ladies and one gentleman, all of whom will be interred here to-day. One lady about 30 or 35 years old, fair complexion, 5 feet 4 inches in height, rather fleshy, 3 or 4 upper front teeth gone. Had on a dark brown Chambra or Dubaize dress, figured lace collar and black velvet ribbon on her neck, gold breast pin with form of a leaf, studded with brilliants, 2 gold finger rings, one marked J. C. M. and one Z. S. D., also 1 coral ring. Had in pocket to dress, one penknife, and linen handkerchief.

One 35 or 40 years old, large size, 5 feet 7 inches high, rather coarse features and dark complexion, with black hair a little gray on the forehead. Dress a dark drab chambra, with satin stripes and buttons in front, white crotchet or open worked cotton hose and black gaiters, and worn ear rings. Had in dress pocket, pair gloves paper pins, and a fine ivory comb, and had in a pocket in her skirts some $800 in gold coin and bills. Was said to have a gentleman in company with her on the boat, supposed to have been her husband, who was probably lost.

Another lady, some 40 years old, dark brown hair, a little grey, upper teeth gone; wore a dark brown chambra dress, one grey woollen and one grey worsted skirt, white drawers, purple-colored woollen hose, light kid shoes and rubbers, leghorn bonnet, trimmed inside and out with blue ribbon, also had on a green and brown colored plaid woollen shawl, wore gold ear-drops; had in her pocket a fine comb, pin-cushion and a linen pocket handkerchief.

A man about 60 years old, full size, about 5 ft, 10 inches in height, hair almost white, wore a blue dress-coat, brown double-breasted, woollen vest and black pants, black silk cravat, blue woollen hose and morocco bootees; had in his pocket a small, black, gilt-edged wallet, with clasp, containing two $2 bills on the Bank of Royalton, Vermont, and forty-one cents in silver; also a small pictured card, written in pencil on back, the words (as near as I could make out) "grandfather Ainsworth."

The foregoing persons, Capt. Miller thinks, came on board at Collingwood.

Yours, in haste,
M. M. WHEEDON.

N. B.—The Captain does not know the number of passengers on board at the time of the burning; think that there were some sixty saved.

STATE OF WISCONSIN, } ss
Ozaukee County, }

Came before me, this 25th day of September, 1856, Capt. F. S. Miller, of the Steamboat *Niagara*, and being duly sworn, deposes and says; That I left Collingwood on the 22d inst., at 9 o'clock P. M. The Clerk informed me that he had on board 105 tons merchandise and passengers' baggage, 21 horses and several wagons, and about 75 cabin passengers. On arriving at Mackinac, we took on six more; does not know the number of steerage and deck passengers; the weather was fresh, northerly; arrived at Mackinac on Tuesday at 12 o'clock noon; left 20 minutes past 3 o'clock P. M., and arrived at Two Rivers about 1-2 past 10 o'clock A. M., the 24th inst; on arriving there stopped at Manitowoc about 1-2 past eleven A. M., and landed some passengers and things; one or two came aboard at this place; left Manitowoc and arrived at Sheboygan, and landed 15 horses, some wagons, and quite a number of passengers, and some merchandise; left Sheboygan about 1-2 past 2 o'clock P. M.; went to my state-room to lay down; was not called up, but on getting up, discovered that the Boat was on fire, and supposed it was about the stove pipe, aft; I first met the 3d Engineer and told him to get the hose on to the pumps. I then turned to go forward, and found the hall full of smoke; I went to the Pilot House, gave a signal to the cook to put up the Boat was headed towards the shore; the engine then stopped; was about five miles from shore, and four to five miles from Port Washington; I left the Pilot House, the 1st mate then came forward; I ordered him to get the axes, and man the small boats and get them over; mate replied that the stern boat was over and capsized; we then went to work and broke the state-room doors off and threw them overboard; I then went aft to the larboard side and kicked the doors off and threw them over, together with wash-stands, chairs, and everything I could get hold of; I remained aft as long as I could, then went below to the wheel, when I was taken off by the *Traveler's* boat, and taken on board. F. S. MILLER.

Subscribed and sworn to before me, this 25th day of September, 1856.

M. M. WHEDON, Justice of the Peace.

I, Archibald Gillis, first mate on the above Boat, hearing the above statement of Capt. Miller read, believe the facts as set forth by him, to be correct. A. GILLIS.

From a Our New York Correspondent.

NEW YORK, Sept. 19.

When I sit down to write for the *Sentinel*, whatever other topics for a letter I may have meditated, my mind runs at once to that of Slavery. Like the Greek lyric poet of old whose harp-string would resound only to one strain, my pen refuses to treat of other subjects when addressing a political journal, and gives itself wholly to that which is the great topic—not of the day only—but of all time. I am indeed sorely perplexed occasionally when meeting with some old acquaintance, to find indifference as to the issue now before the people of the U. S. for their decision; and that men of reflection in other pursuits and callings in life, and of undoubted integrity, do not see as I do that every consideration of duty, patriotism and morality seems to impose upon fair-minded men the obligation to exert themselves to the utmost to prevent the election of Mr. Buchanan, and the triumph of such principles, or such lack of principle, as he represents

I can only account for this indifference by the hypothesis that such persons do not at all see the case as I see it—do not reason from the same premises—do not in short believe in the reality of this, as he only living issue now before the country— he Extension of Slavery and not of Freedom. For if these persons did thus view the case, there could be no difference between us—and the ofore it is that I so often recur to it, in order to do my part here, in stimulating men to inform themselves of what is going on—to endeavor to arrive at the facts, assured as I feel that no fair-minded man, who loves his country, and believes in the obligation of every citizen of a free representative Republic to take part in its government, in so far at least as to choose intelligently between the candidates named for its governors or legislators, can become acquainted with what is doing and what has been done in Kansas—with the pretensions of Slavery to equal rule and power with Liberty in the policy of the country—with the violation, in all that is done or countenanced by the national government, of the most solemn and plainest rights of persons and of property of the free state men going to Kansas—with the piratical depredations committed along the course of the Missouri river by hordes of pro-slavery men, led on, encouraged and sustained by men holding commissions, in some instances, from the Federal Government—it is impossible, it seems to me, for fair-minded men to know and see these things, and yet to hold aloof from the conflict now waging in the U. S. for the restoration of Law, the vindication of Good Faith, and the triumph of Freedom.

The decision under which Mr. Choate and Mr Winthrop in Massachusetts, Mr. Hunt in this State, and other good men in other States, labor as the coming election, is to me utterly incomprehensible. Mr. Choate, indeed, since he determines not to support Mr. Fremont, is at least consistent with his views in pronouncing for Mr. Buchanan, since these are the only real candidates; and it is at least manly to go thus directly to one's object. For Mr. Fillmore—forced upon the so-called American party by the slave-holding interest, on a pro-slavery platform, there is not the ghost of a chance in any Southern State. He is renounced by Slavery, after having prostrated himself in the dust to propitiate its favor. In the South, he cannot, in my belief, attain a single electoral vote. Will his chance be any better in the free States?

Not a whit, in my judgment; but his name will damage to some extent the Republican cause and cand date, but not to the extent of depriving him of the vote of any free State. It is therefore a most palpable spectacle, that of respectable men, running after such a shadow as the possible success of Mr. Fillmore. There are but two candidates—Fremont and Buchanan—representing unmistakably two platforms—the one that of Freedom with Union at home and Peace abroad, the other that of Slavery at home, and Violence and Piracy abroad.

All the other questions are subordinate—all other issues overshadowed. Give us John C. Fremont for President, and the principles he typifies, and in less time than it required at the last session of Congress to elect a speaker, we should see the angry waves of sectional discord subside—the North contented, and the South, too, happy in the calm and honorable policy which that election would inaugurate—a policy with Freedom and the extension of Free institutions as its lode-star, and with exact justice and equal rights to all men—all sections—all States.

As to secession, sometimes threatened by the South, and counselled by Mr. Fillmore, in the event of Fremont's success—it is not worth a thought. It is a bugbear which has ceased to alarm old women, or what is a great deal feebler and more pitiable—womanish old men;—the South could not secede if they would, and would not if they could.

Coming to the Convention.

The Fond du Lac *Commonwealth* says!

We had hoped that Cassius M. Clay and J. R. Giddings would visit this part of the State, and such a rumor was in this place last week, but we see they are engaged for places west of Milwaukee, and we have no assurance that they will be here. Under these circumstances, we advise all who can to go to Milwaukee to hear these great speakers on the 2d day of October. The Railroad will carry passengers at half fare.—This being the case, Fond du Lac County will no doubt turn out a large delegation. The meeting will no doubt be the largest by a great deal that ever assembled in Wisconsin.

We are glad to hear of these movements in various quarters, and we do not doubt that the People will be here in their might on Thursday, the 2d of October. In our neighboring towns we hear of preparations to be on hand. The Republicans of Milwaukee will be "at home" on that day and the invitation is general to the people of the State. Let them come by tens of thousands!

A JUST REWARD.—It having been reported that President Pierce was about to visit Concord, his former residence, a very large meeting of the citizens was held, in answer to a call to make preparations to receive him. Over 1000 persons were present. The following is the result of the meeting

Mr. L. F. Flint offered the following resolution, and supported it in an able speech:

Resolved, That it is inexpedient, as citizens of Concord, to make arrangements for giving a public reception to President Pierce at the present time.

Mr. Fogg boldly arraigned President Pierce as responsible for nearly all the murders and outrages that have been committed by the Border Ruffians in Kansas.

An attempt was made by the Border Ruffian Democracy to gag him down, but he was heard, and his resolution was adopted by a vote of four to one, and the meeting adjourned.

FREMONT IN VIRGINIA.—The Wheeling Intelligencer of Friday morning says:

The Republican meeting came off yesterday at Mcdeco Hall, in this city, when nominations were made of electors for the State of Virginia. No stones pts were made at any hostile demonstrations against them, and we are glad that our order-loving, substantial citizens, by their advice and counsel beforehand, succeeded in effectually keeping down anything of the kind. However much the meeting may have been distasteful to them, they certainly acted wisely and deserve credit for their prudence.

A Republican meeting was held at Holliday's Cove, Brook County, on Saturday last. Speeches were made by Col. Collier and Col. W. R. Loyd, of Steubenville.

FIRE IN ST. LOUIS.—On Sunday evening last, a fire broke out in Third st., near Olive, destroying the Earthing House, Messrs. Bailey and Ely's carriage shop, and other buildings. Total loss over $50 000. Insurances are mentioned of $7,000 in the Liverpool and London, and $2,000 in the Mound Mutual.

☞ Col. Fremont states upon his honor, that the seizing men across California Bay, seven miles, to capture the fort of Buena Yerba, is worth $10,000.—*News.*

Col. Fremont says no such thing, and never said any such thing.

Correspondence of the Sentinel.

Republicanism at West Bend, Washington County.

WEST BEND, Sept. 20, 1856.

EDITORS OF THE SENTINEL:—The meeting of the Republicans at the Court House in this village, last evening, far exceeded our most sanguine expectations, in numbers and enthusiasm. The Court House, which is large and commodious, was densely crowded at an early hour. J. E. Young Esq., President of our Club, presided.

H. J. Pumo Esq., of your city, being introduced to the audience, spoke about one hour with much zeal and effect, and was frequently applauded.—He showed clearly and distinctly that the present Democratic party had forsaken the great principles of democracy, as taught by Jefferson and his associates.

Mr. Ludvigh, of Baltimore, was then introduced to the audience, and spoke about one hour and a half in the German language, and was repeatedly and enthusiastically cheered, by the German audience. His speech at this place, and the one at Newburg the evening previous, has awakened an interest in the minds of the Germans that will not abate.

The Barton Glee Club was in attendance, and contributed to the interest of the meeting by singing several very appropriate and excellent songs.

About the middle of Mr. Ludvigh's speech, the alarm was given that some building at Barton was on fire; and for a short time considerable confusion prevailed, and many of the Barton people left, thinking that it might be their own house. It proved to be the new Grist Mill of Messrs. Cook & Eliot, three fourths of a mile north of the village of Barton, which was just completed and ready for use. It was the work of an incendiary, without doubt. Eleven chests of carpenter and joiners tools were consumed in it. The exact amount of the loss I am unable to state—probably not less than $10,000.

The democracy showed to what desperate measures they will resort, to keep our German fellow citizens from attending Republican meetings, by trying to get up a demonstration on their part, at the time appointed for our meeting. As soon as the German handbills were posted, advertising that Mr. Ludvigh would address our citizens in German, you might have seen little squads of Democrats on the corners of the streets in *anxious* consultation. In the village of Barton, some person in the interest of the democracy, followed immediately after, and *tore down* the German handbills, and destroyed them. The next issue of the Democrat of this village, after the notices of our meeting were out, contained the following:

Hickory Pole Raising!!

"The Democrats of Washington County, are cordially invited to assist their Democratic brethren at West Bend, in raising a *Hickory Pole*, on Friday next, the 19th inst., at 5 o'clock P. M.

(Signed) MANY CITIZENS.

(The notice of our meeting was for 6 o'clock P. M. of that day.)

To add to the attraction of the occasion, they had a band of music in attendance; and a few office holders and office seekers were at the expense of getting up quite a number of little Buchanan flags, and scattering them quite profusely about the village. About the middle of the afternoon they got the Band into a wagon and paraded the streets, followed by fifteen or twenty little boys, who were very much amused! During this performance the Republicans raised a fine pole, and hoisted their flag—which we think is a good one—with the name of Fremont and Dayton inscribed on it, and being much larger and better than the one subsequently hoisted by the Democracy.

Notwithstanding all their flags, then pulling, "pole raising," *fiddling* and *tooting*, they got together a crowd of not more than 40 or 50, at the most—almost wholly from the village—aside from the little boys, that enjoyed the sport so well. About the time for the commencement of our meeting, the crowd was harangued by different individuals, on the corner of the street, under their pole, and from there I am informed they adjourned to the Washington House. But it was all *no go* with them, for the *people* were bound to attend the meeting at the Court House, and the farmers poured in from the country by hundreds to listen to the speeches of Messrs. Ludvigh and Paine.

Such proceedings on the part of the Democracy, to keep men from attending Republican meetings, are in perfect keeping with their platform, the administration which they endorse, and the dictates of their Southern masters.

Yours &c., L. F. FRISBY,
Cor. Sec'y Rep Club.

☞ We have been furnished with the following as the official proceedings of the Fillmore State Convention. They are scarcely worth any further notice than the *query* whether "Andrew Jackson Donelson, the Richmond *Whig*, Louisville *Journal*, and the other Southern K. N. journals which have not gone over to Buchanan are as "deadly opposed to the spirit of Slavery Extension" as the score or so of men who passed these resolutions pretend to be:

THE FILLMORE CONVENTION.

The FILLMORE Convention met according to notice, at 10 o'clock A. M., when committees were appointed to draft resolutions, &c., and then adjourned to 7½ o'clock P. M.

At the appointed hour the Convention met.—L. KENNEDY was chosen President, and C. C. MESSERVEY, Secretary.

C. C. MESSERVEY, chairman of the Committee on resolutions, presented the following:

Resolved, That we, as citizens of the United States, are assembled here by reverence for the constitution, and an unalterable attachment to the National Union, and a fixed determination to do all in our power to preserve it for ourselves and posterity.

Resolved, That the highest civic duty of an American citizen is to promote the prosperity of his own country; that to do this he should endeavor to preserve, strengthen and defend the principles of American Republicanism, as they were promulgated in the revolution of 1770, and incorporated in the Constitution of the United States.

Resolved, That we regard with the deepest anxiety the present disordered condition of our national affairs. A portion of the country being ravaged by civil war and large sections of our population embittered by mutual recriminations, and we distinctly trace these calamities to the culpable neglect of duty by the present National Administration on the one hand, and a desperate effort to further the ends of political gamblers on the other.

Resolved, That all who revere the Constitution and Union must look with alarm at the parties in the field in the present Presidential campaign—one claiming only to represent sixteen Northern States and the other appealing to the passions and prejudices of the Southern States—that the success of either of the factions must add fuel to the flame which now threatens to wrap our dearest interests in one common ruin.

Resolved, That while we are deadly opposed to the spirit of slavery extension, now and for ever, we still recognize the South as a common brother under that Constitution which we revere and honor; that they are entitled to all the privileges which the Constitution guarantees to the whole country.

Resolved, That in the nomination of Millard Fillmore and Andrew Jackson Donelson, we recognize a ready remedy for the appalling evils which overhang our country. That the only remedy for an evil so appalling is to support the candidates, pledged to neither geographical section now arrayed in political antagonism, but holding both in just and equal regard; that we congratulate the friends of the Union that such candidates exist in Millard Fillmore and Andrew Jackson Donelson, and we speak for them the cordial support of National men in all sections of the country.

Resolved, That Millard Fillmore shall be the next President, and Andrew Jackson Donelson the next Vice President of these United States.

The resolutions were unanimously adopted.

Speeches were made by Messrs. Dayton and Totten of Waukesha, L. W. Kennedy of Milwaukee, and Prof. Starke of Milwaukee.

Letters were read from Messrs. Thos. H. Clay of Ky., John Bell of Tenn., Erastus Brooks, Judge Comstock, and others, regretting that they could not be present, and participate in the proceedings.

The following nominations were then unanimously made:

(We gave the nominations yesterday.)

The following then passed:—

Resolved, That the Secretary be requested to furnish each of the journals in the city with a copy of these proceedings for publication.

Meeting then adjourned with three cheers for Fillmore and Donelson.

RACINE COUNTY NOMINATIONS.—The Republicans of Racine County have put an excellent ticket in nomination,

PINNEY YOUNGS' PATENT SEWING MACHINES.

PATENTED JANUARY 20, 1855.—REISSUED OCT. 21, 1855.

THIS IS TO CERTIFY, That we purchased the first Sliding Motion Machine at our Office of Roy de Noyer, March 19th, 1855. Two Thousand Pecks, superficial measure, per hour, and upon a trial of twelve hours we cut 232,134 feet superficial measure, of Flooring Boards, Siding, Mill Lath by Pinney Youngs, of Milwaukee and that we have run the same Machine Milwaukee, Nov. 19th, 1856.

This is Certify, That we have used one of Pinney Youngs' Patent Sewing Machines for the last six months, and we have never seen any Machine of the kind that will in any way compare with this. It will run steady and up to double the amount of lumber in the same time that any other Patent we ever saw. We really would not exchange our machine for any other ten machines we have seen. Any other Patent we ever saw. We can use Chicago, August 18th, 1856.

Messrs. Pinney Youngs & Co.
Gents—We have been using one of your Sewing Machines, and find them to answer our expectations in every respect. From the experience being about two months we have had with them, we can recommend them as being durable, simple in construction, and not liable to get out of order. We think it cannot be equalled by any other Machine now in use.

GREAT and extensive sale of all the Machinery of Engines, Tools, Patterns from Models and every thing of every character whatever, which are now in use in the Uncommon Locomotive Foundry in the Fifth Ward. I will commence to sell the same on the 8th day of October next, and will continue sale from day to day, until all and every article is sold. The said Company having now been dissolved. The amount of machinery, &c., &c., cost upward of twenty thousand dollars but it will be sold for whatever it will bring. All who are engaged in such establishments had best be on hand. CALEB WALL,
sep24 Auctioneer for the Company.

A VERY LARGE new Brick House and lot for sale on Smith Ward, on Marshall st., to be sold at public auction on Thursday, October 2d at 10 o'clock, for cash, or a portion of the money can remain for a short time. The house is entirely new, finished last fall and is complete in every particular. On the first floor there is a large hall, two large parlours sitting room, library room, dining room, kitchen pantry. Second story, five large sized chambers, third story as also, three bed rooms. All the rooms are furnished in the best and latest style. The house is lit with gas throughout, it is also finished off with bathing rooms, &c., &c. In fact there is every comfort and convenience about the house one wants or desires. It was built in the very best of manner. It was not built to sell, but owing to unforeseen events the owner is compelled to sell it, owing to other arrangements and engagements which he has entered into. The said house is the one immediately north, joining to Wm. B. Hibbard, Esq., on Marshall st. It is useless for me to say that Marshall st. is one of the pleasantest and handsomest streets in the city of Milwaukee and there is no street where property is so valuable and the neighborhood so desirable. The grading of the streets, and the paving of the gutters is all completed. In a word, it is a very choice place, and it must and will be sold for it has to be sold and that for cash. So all who want a good house in a good neighborhood, street, and a low figure, the days will be given after the sale the sale to allow the purchaser to raise the money which, if he wants he, no doubt, can easily do, by giving a mortgage on said property. But five per cent cash will be required to be paid down, at the day of sale.

GREAT SALE of valuable Lots in Wright's Addition, joining Sherman's Addition, in 6th Ward, it is well known, (and those who do not know it ought to know it) that there is no part of the 6th Ward filling up so rapidly and prominently as Sherman's Addition all along Third street, up to where Wright's Addition commences are stores of various kinds, and it is a beautiful location, not to be surpassed. In fact, there is no property, in my opinion, which is now offered for sale, which holds out such inducements for those who want to secure themselves a home, and those who have money to money to invest, as the Lots in Wright's Addition. Remember that Wright's Addition commences on the next street above Beaubien street in Sherman's Addition another fact, the Lots in Wright's Addition are full, old fashioned shaded lots, which are now being offered for sale. I will, in a few days, have plats of said Addition, which can be obtained at my store. The sale of said property will take place on Tuesday, October 9th at at 10 o'clock, at my store.

The terms are as follows:
¼ cash, balance in 1 and 2 years at 7 per cent interest, or, ⅓ cash, balance in 1, 2 and 3 years, at 6 per cent int., or, 1-5 cash, balance in 1, 2, 3 and 4 years, at 10 per cent interest.

Persons have their choice of terms.
Title is the best in the world.

I will sell it at a grand bargain, and possession given next Tuesday. It is in a choice neighborhood. All the money to pay down will be about $1,500. THE proprietors of the Milwaukee Commercial College would respectfully announce that the liberal patronage that has been extended to this deservedly popular enterprise has led them to extend the field of study, so that it will embrace every branch of a thorough Commercial Education. As there are no classes formed in any department of study—thereby enabling the student to enter any time, each one receiving separate instruction—he student, on entering, is placed in the Counting Room, with actual transactions to work from, thus making the education not merely theoretical, but practical to the last degree. The Commercial Course comprises Book Keeping by Double Entry in its various forms, as adapted to Wholesale, Retail, Commission, Manufacturing, Custom House, Banking, Railroading, to stock partnership, and common Co-partnership business, Commercial Calculations in per centage, Exchange, Bank and Rebate Discounts, Average, Accounts by Simple and Compound Equations, Arbitrating to the most approved methods Commercial Correspondence, including account sales, Account current, Drafts, bills of exchange, &c, &c

Also, a perfect system of detecting Counterfeit Bank Notes, will be given to each student.

A \$10 Hand Writing guarantee to every person completing a full course.

During the Sessions, Lectures on Commercial Law will be delivered by eminent legal and business men, and no pains will be spared to make this department particularly attractive.

Particular attention will be given to ladies who may wish to acquire a business education, and separate rooms have been beautifully fitted up for their use.

Merchants and others can at all times be informed that, at any time, by a few days' notice, they can be supplied with competent Accountants, and young men will be assisted in procuring situations when desired.

MR. AND MRS. L. S. H. DE CHERY, from Paris, for four years past instructors in colleges and seminaries in Milwaukee, have the honor to inform the public that they will form classes in the French, Italian and Spanish Languages on the 1st of September next. The general principles will be in spelling to the age and intelligence of the pupils, and the classes kept entirely apart, as their house being arranged with that view.

Gentlemen and ladies who begin to speak either of these languages, can receive lessons in Reading and Conversation, Mr. De Chery furnishing books of the best French authors. Those to whom to learn vocal music in either of those languages, will find a competent music teacher in the establishment.

The hours of instruction will be from 3 to 11 o'clock A. M., and from 3 to 5 P. M. and in the evening from half past 7 to 9 o'clock.

Mr. DE CHERY will also give lessons in French, Spanish and Italian, at his office, to gentlemen only, from 7 to 9 o'clock in the evening, at 81 dollars in French, and at 10 dollars in Spanish and Italian per lesson. For those of delicate constitution and feeble temperament, as also those confined to their offices and engaged in sedentary pursuits, will derive from these exercises, improved muscular health, acquire strength in their limbs and find an agreeable recreation.

Mr. De Chery will also form similar classes for children, from 10 to 15 years old, at his house, or office, as may suit parents. Fathers and mothers who desire to see their children young, active and robust, can judge for themselves after a few weeks trial, as to the effect of these different exercises upon their health.

The most liberal patronage of the public is respectfully solicited.

To MERCHANTS.—Mr De CHERY will take charge of French correspondence to all the principal cities of France. He will procure all Price Currents that they may want.

IS STILL IN FULL BLAST, WORKING DAY AND night to supply the daily increasing wants of the Badger and other States.

In order he better to do this, the proprietors have erected a large Brick Foundry in addition to their former premises. They have added to their stock of Tools a large Planing or Shaping Machine, three Lathes, and a Machine for making bolts, and are now putting in a Steam Engine of —horse power to drive the whole, thereby adding to the former facilities for the successful carrying on of the Foundry, Machine, Engine and Blacksmithing business. They never were in a better position for doing business, and

in any department

In regard to the character of the work got up by this The Oldest Establishment in the State

the Proprietors refer to that in successful operation through the country as their best recommendation, as it can speak for itself. All they can say is, that they are both PRACTICAL MECHANICS, and know how work should be done as well as the next man

They continue to manufacture FLOUR and SAW MILL GEARING, and STEAM ENGINES, on the most approved principle,

They have always on hand a large stock of BRASS WORKS, such as COCKS AND CHLINDER DOORS, OIL CUPS AND COCKS, and STEAM WHISTLES. Also TURTON'S FILES, which they will sell at the lowest cash price

They are also Agents for HAYWARD'S PATENT STEAM GAUGES, which are well worth the attention of all those who use Steam Engines

In conclusion, they invite a continued share of the patronage of their old friends, and solicit a call from all those in want of Saw or Flouring Mill Work, assuring them that no exertion will be spared to render the Old Eagle worthy of the reputation it has already gained.

Their motto is, "Excelsior."

Together with an enormous stock of DOMESTICS, purchased in the Fall at very low figures, with a view of being prepared for the EARLY SPRING TRADE, without being subjected to the exorbitant rates of Rail Road charges on such goods as are sold at a trifle above Eastern cost, we are prepared to show, and will be most happy to sell the

MOST COMPLETE AND EXTENSIVE STOCK OF

DRY GOODS,

Ever before offered in the West!

Being connected with several large manufacturing establishments and importing houses at the East, trying to every city and country customer, to be the most liberal in our dealings, we flatter ourselves that we can say with safety that we consider competition quite out of the question

Having in store and to arrive—
